

For reference with the Font Awesome icon fonts by Dave Gandy and the plugin by Rachel Baker.

Disclaimer:

I have no rights or affiliation with Font Awesome or The Font Awesome Plugin for WordPress. This PDF is simply a reference to download and use when inserting the font awesome icons into your WP posts and pages so you don't have to reference the website.

All I have done is copied the icons and names from the Font Awesome site as a screenshot and placed them in a document so you can reference them.

The icons start on the next page.

:-)

Have fun!
